First the
mother
butterfly lays
eggs.

contents

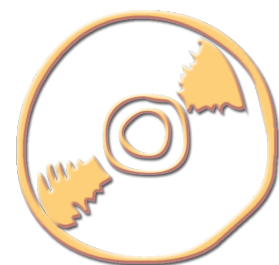

Then, the
babies come
out of the
eggs.

The
caterpillars
eat leaves.

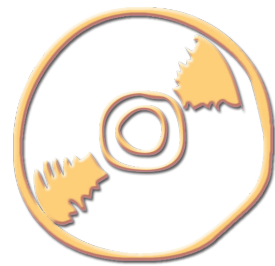

When the caterpillars are big, they sleep inside a cocoon.

After a few days,
the caterpillar
begins to change
inside the
cocoon.

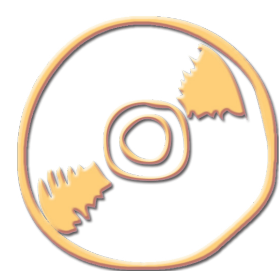

contents

The caterpillar
has changed
and comes out
of the cocoon.

Now, the
caterpillar is a
butterfly.

contents

The butterfly
eats, grows big
and then lays
eggs.
